# BinBlaster

BIN WASH FRAME

Bins lifted just past horizontal at ergonomic height for cleaning

Controls can be fitted to either side

Lift ram powered by mains water pressure - no power supply or electrocution hazard

Design folds flat in minutes for easy storage or transport

Robust hot-dip galvanised steel construction

Works with all wheelie bins

simple controls

Removable debris basket

**1.0m**  
Fixed tip height

**80kg**  
Capacity (max gross bin weight)

**~20 standard bins per hour**  
Duty cycle

**Water pressure**  
Power supply (optional battery pack)

“Such a simple and effective innovation!”

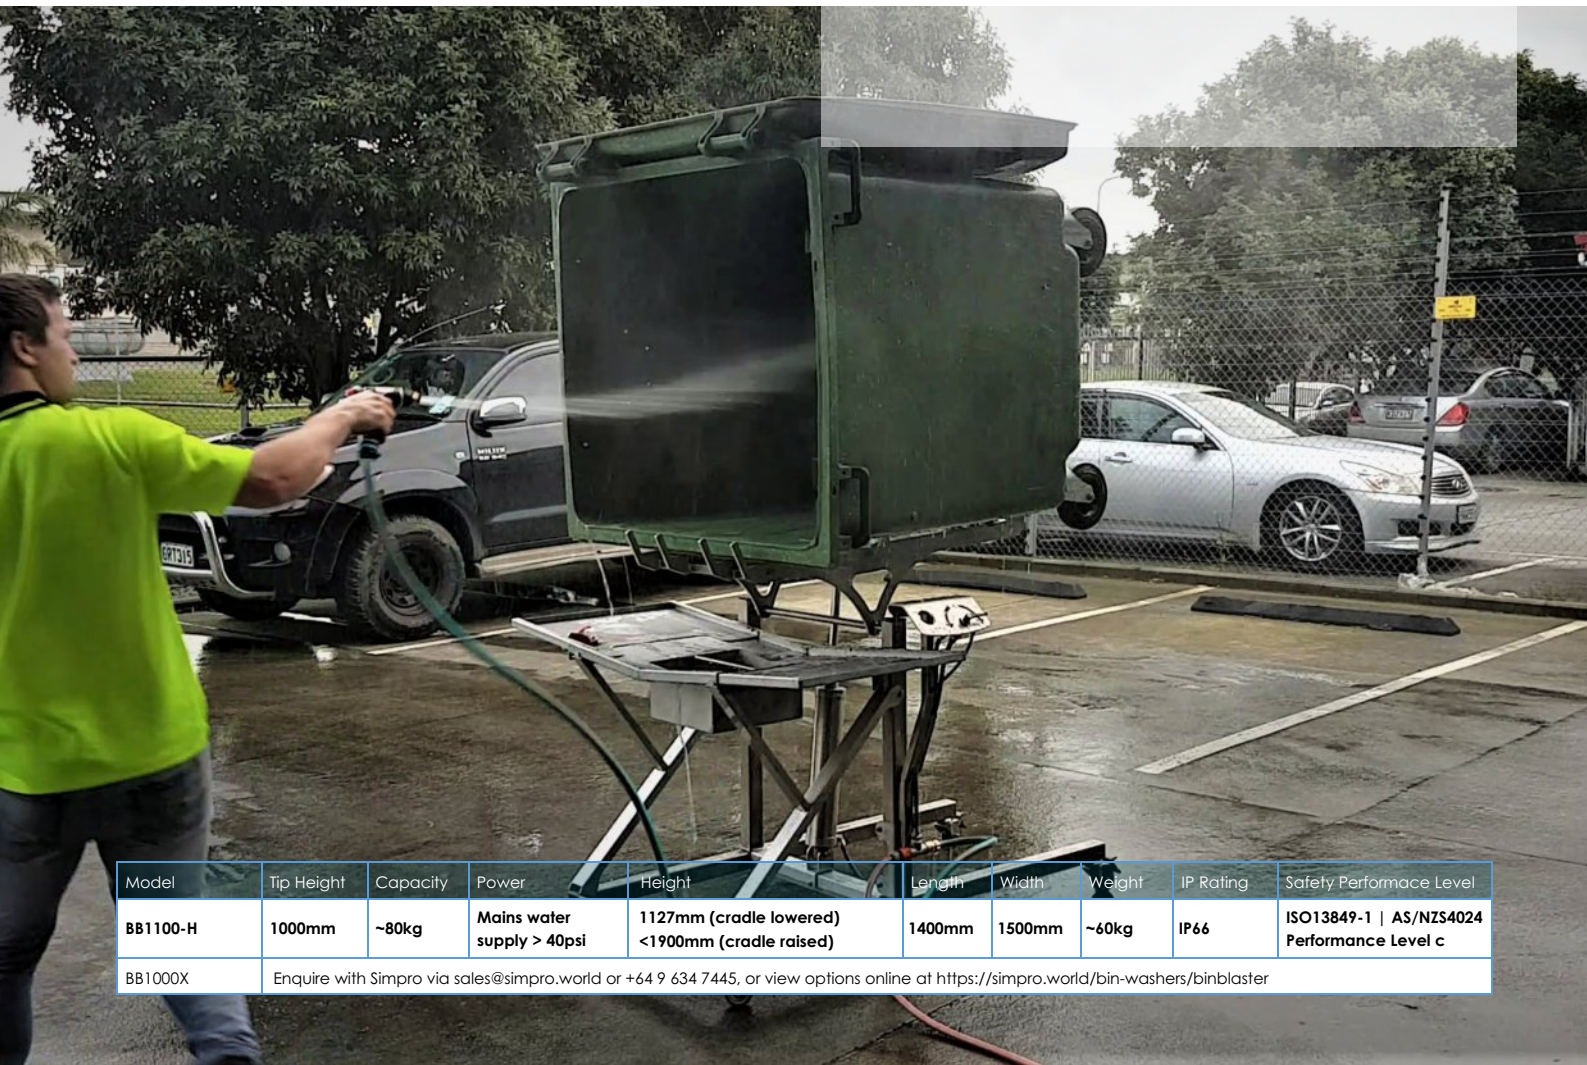

Christian Allen - Head of Environmental Operations  
Boston Borough Council

The new Simpro BinBlaster solve the problem of washing wheelie bins with a simple but unique idea: it draws hydraulic power from the water supply (or from an optional battery pack) to quickly lift and tilt bins at an ergonomic height for manual washdown.

The BinBlaster's 'antler' bin-hitch system which can safely lift wheelie bins from 80L right up to 1100L, with no clamping or modification. By simply turning the control lever, the bins are lifted onto their side at the optimum height for washdown. And since no electric power is required the BinBlaster can be used anywhere, and avoids the risk of electric shock.

Debris washed from inside the bin is caught by an extendable tray and collected in a small bucket, which prevents objects such as broken bottles from entering the wastewater system. Additionally, if the BinBlaster is to be used in a water-scarce environment the optional water catchment tank and recirculation system can be installed, which reduces water usage.

The BinBlaster features a hot-dip galvanised steel frame, with two wheels to allow easy movement. Contact your Simpro agent for a quote.

**i** Simpro has been developing, manufacturing and retailing smart lifting solutions for over thirty years. From humble beginnings as a small engineering firm in Auckland, New Zealand, the company has grown to become a leading supplier of equipment for niche applications – such as bin lifting, tipping and handling equipment, pallet trucks, stackers, order pickers, and goods lifts.

Simpro products play an unobtrusive but essential role for thousands of companies around the world, in industries as diverse as waste

management, resource extraction, pharmaceutical manufacturing and food processing. They are distributed through a worldwide network of agents, and are backed by a sophisticated in-house design and fabrication capability.

Simpro is a family-owned company, registered with the New Zealand Companies Office as Simpro Handling Equipment Ltd, company no. 1827916.

The products in this catalogue contain intellectual property, including design elements registered to or licensed by Simpro Handling Equipment Ltd.
